

# MultiMessFix

## The universal multi measuring indicator

Easy cut-in measuring! With this patent-registered measuring system you can measure *easy*, *exact* and *fast* on your precision turning and groove workpiece the clearance groove and web width, the total length/height as well as inside and outside distances

## Your benefits

- multi-measurement
- measuring in seconds
- directly on the production tool
- high precision
- nondestructive measuring
- simple application
- many measuring applications
- easy setup for different applications

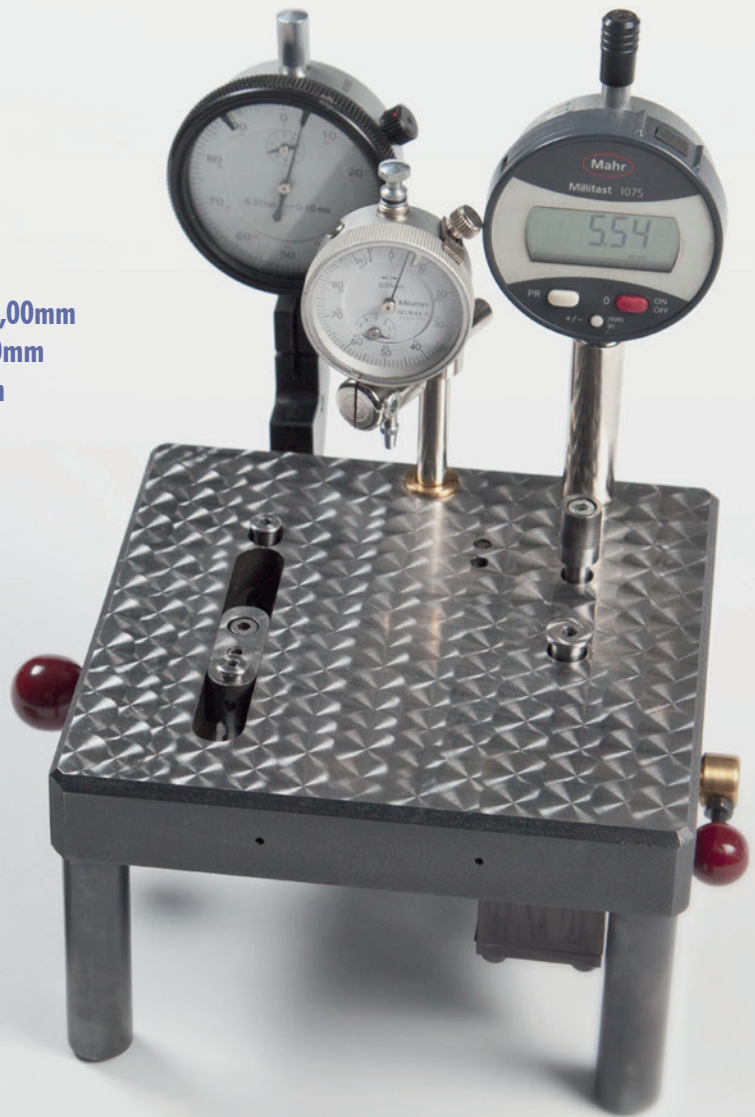

### Operation range

Measuring way: 6,00mm

External diameter : 10,00-90,00mm

Inner diameter: 12,00- 80,00mm

Groove width: 1,10-80,00mm
